INDEX

Adler, Mathew
cost-benefit analysis, regulatory applications, Spring 2007: 89–92
Advanced Technology Program
competitiveness legislation near approval, Summer 2007: 21–22
Agriculture
subsidies and trade policy, Winter 2007: 23–24
water scarcity, food crop yield and, Summer 2007: 39–48
Air Force, *see* U.S. Air Force
Air quality
see also Climate
biofuels technology legislation, Summer 2007: 24
carbon emissions, cap-and-trade rules, Summer 2007: 22–23
electric generation, low-carbon technologies, Spring 2007: 37–43; *Letters:* Summer 2007: 19
standard for particulates, Winter 2007: 27; *Letters:* Fall 2006: 22–23
Air transport
NASA aeronautics vs space science R&D, funding, Fall 2006: 69–78; *Letters:* Winter 2007–07: 12–14
terrorism, security policy and funding, Winter 2007: 51–60; *Letters:* Spring 2007: 9–10
American Association for the Advancement of Science
policy on R&D, general, Summer 2007: 26–27
R&D policy and funding, critique, Summer 2007: 31–38
American Chemistry Council
terrorism, chemical industry protections, Fall 2006: 31–33; *Letters:* Winter 2007: 22
Anker, Suzanne
art and genetics, work of Suzanne Anker, Summer 2007: 96
Apt, Jay
carbon dioxide, low-carbon electric generation, Spring 2007: 37–43; *Letters:* Summer 2007: 19
electric system reliability, domestic and international exemplars, Summer 2006: 51–58; *Letters:* Fall 2006: 16–17
Arbatov, Alexei
nuclear weapons, deterrence policy, Winter 2007: 87–90
Archives, *see* Historical perspectives
Arms control
Pentagon Quadrennial Defense Review, Summer 2006: 71–78; *Letters:* Fall 2006: 8–9
Asia
see also China; India; Pakistan
Atkinson, Robert
competitiveness of US, policy critique, Winter 2007: 69–75; *Letters:* Spring 2007: 10–14
Atlas, Ronald
biological weapons, security and life science R&D policy, Fall 2006: 41–49; *Letters:* Winter 2007: 9–10
Auerswald, Philip
energy insecurity myth, Summer 2006: 65–70; *Letters:* Fall 2006: 5–8; Winter 2007: 17–19
Automobiles, *see* Motor vehicles

Barton, Joe
greenhouse gases theory, House committee challenge, Fall 2006: 21–22
Benedick, Richard
greenhouse gases, post-Kyoto Protocol, Winter 2007: 37–40; *Letters:* Spring 2007: 6–9
Biological weapons
legislation on fisheries and bioterrorism security policy, general, Fall 2006: 37–40
terrorism, life science R&D policy, Fall 2006: 41–49; *Letters:* Winter 2007: 9–10
Biotechnology
China, technological innovation policy, Spring 2007: 54–62; *Letters:* Summer 2007: 13–16
flu pandemic preparations, Summer 2006: 79–84; *Letters:* Fall 2006: 15–16
stem cell R&D funding, legislation, enacted, Spring 2007: 24
vetoed, Fall 2006: 21
Blumenthal, Marjorie
Internet, sociocultural impact, Summer 2007: 80–82
Bonvillian, William
science education policy, labor force needs, Summer 2007: 84–87
Bosso, Christopher
nanotechnology, national initiative, Summer 2007: 2830
Bush, George
Climate Change Technology Program, progress, Winter 2007: 26
information security and secrecy, government practices, Winter 2007: 92–95
space science policy, defense applications, Winter 2007: 33–36; *Letters:* Spring 2007: 14–17
stem cell R&D funding, legislation, Bush veto, Fall 2006: 21

Carstensen, Laura
elderly persons, Winter 2007: 41–50; *Letters:* Spring 2007: 9
Caulkins, Jonathan
drug policy, incarceration vs alternatives, Fall 2006: 79–85; *Letters:* Winter 2007: 10–12
Central Intelligence Agency
Sanborn, James, appreciation, Winter 2007: 96
Chemical weapons
history of chemical warfare, Fall 2006: 93–95
security policy, general, Fall 2006: 37–40
terrorism, chemical industry protections, Fall 2006: 31–33; *Letters:* Winter 2007: 22
Children
see also Primary and secondary education
China
defense planning, Pentagon Quadrennial Review, Summer 2006: 71–78; *Letters:* Fall 2006: 8–9
economic competitiveness and policy toward, Spring 2007: 26–27
education policy, labor force needs, Summer 2007: 84–87
technological competitiveness and policy toward, Spring 2007: 45–53
technological innovation policy in China, Spring 2007: 54–62; *Letters:* Summer 2007: 13–16
Climate
biofuels technology legislation, Summer 2007: 24
Climate Change Technology Program, progress, Winter 2007: 26
electric generation, low-carbon tech-
